

Tschirhart and Vogt Get Top Grad Honors

By Sallie Stern

Commencement exercises for 382 members of the graduating class of June were held in Bushwick's auditorium, June 26.

Dr. Forsheit delivered an address of welcome to the graduates and an overflowing crowd of their parents, relatives and friends.

The salutatory speech was then given by Eve Spangler, the top ranking girl in the senior class, on the curiosities of life. The valedictory address was presented by John Tschirhart, the top ranking boy in the senior class. His address concerned the responsibilities of life.

The musical portion of the program included a choral selection sung by the Mixed Chorus, an operatic duet sung by two graduating seniors, Pamela Brown and Brenda Lee, and Chopin's *Polonaise*, a piano selection played by RoseAnn Adamo. The chorus was directed by Mrs. Gittleman and the orchestra, which accompanied the graduates, was lead by Mr. Abel.

Mr. Wolfson, chairman of the Mathematics Department, made the presentation of awards to the outstanding students of the senior class. The two students receiving the most awards were Eve Spangler and John

Tschirhart. Eve received a total of fourteen awards and John thirteen.

The most outstanding award presented at graduation was the Frank A. Rollins Memorial Scholarship. This scholarship is awarded in memory of the first principal of Bushwick. The award was presented by Mr. Joseph Crown, a trustee of the scholarship fund and the first recipient of the award thirty-nine years ago. The scholarship, valued at \$2,000, is shared by the highest ranking students in both the academic and commercial courses. The recipients were John Tschirhart, for academic studies, and Lotte Vogt, for her achievements in commercial studies.

Dr. Francis Griffith, assistant superintendent of schools, was the next speaker; his topic was concerned with the accomplishments of man through the ages.

Mrs. Cender, senior class adviser, presented the graduates to the parents and the faculty members. Dr. Forsheit then conferred a token diploma on Salvatore Triolo, the senior class president. Following that, Salvatore presented the class gift to Dr. Forsheit, who received it on behalf of the school.

Mr. Breslau Captures \$1000 Teaching Award

By Angelo Branchina

Mr. Abraham Breslau of the Science Department has recently received an award of \$1,000 "for outstanding contributions to chemistry through inspirational teaching and professional activities."

The Nichols Foundation Chemistry Teacher Award, granted Eastern-wide to the outstanding teacher of high school chemistry, was presented to Mr. Breslau last Friday at the Chemists' Club of New York City.

The award is given every year by the New York Section of the American Chemical Society on the basis of records and recommendations from distinguished individuals that the chemistry teacher has been affiliated with. The nominee's record includes scholarship, self-improvement studies, publications, awards and honors, activities in his own school as well as those outside of school, and other qualifications. It is upon this accumulated evidence that the winner is chosen by the A.C.S.

Mr. Breslau has taught in various day and night high schools. He was the Shell Merit Fellow at Cornell (Continued on Page 3, Col. 5)

Mr. Breslau is the recipient of the Nichols Foundation Chemistry Teacher Award.

Bushwick Adds Fourteen New Faculty Members

By Kenneth Prill

The new school year brings on the appearance of new friends, and the reappearance of some old ones. As of September, fourteen teachers have been added to Bushwick's faculty.

The English Department has two additions: Miss Anna Balsamo replacing Mrs. Stack, who went to teach at Lafayette High School, and Joyce Montebello replacing Miss Lee, who is now teaching at the High School of Commerce.

Miss Balsamo teaches first and third term English at Bushwick. She says, "I was impressed not only by the neatness of the students, but by the spirit of friendliness which seems to pervade the building."

Miss Montebello, born in Brooklyn, graduated from St. John's University. She enjoys reading, the theater, dancing, and ice skating.

Mr. Harold Clines and Mr. Nat Bel-

pedio of the English Department have returned from military service.

In the Foreign Language Department we have Miss Marian Davide. She is a graduate of Bushwick and has decided to teach at her alma mater.

In the Health Education Department one finds Mrs. Blanche Zemsky and Mr. Lionel Holder, who are the girls' and boys' swimming instructors.

Mr. Salvatore DeMuro teaches mechanical drawing in our Industrial Arts Department. Before coming to Bushwick, he taught at Mark Hopkins High School, and Junior High School 33. Mr. DeMuro is now a student at New York University.

Bushwick High School, Brooklyn, New York Friday, October 11, 1963

74 Bushwickites Make Honor Roll Vescuso Attains 97% Average

By Carol Sherman

Seventy-four students made the coveted honor roll for the term beginning February, 1963 and ending last June.

Josephine Vescuso, 2-2, Antoinette Algeri, 4-2, and Pina Deninno, 6-1, attained the highest averages in their respective terms.

Josephine topped the honor roll with a 97 per cent average. She is a member of the Junior Arista

and this past term was the recipient of a certificate for excellence in Italian. After college she hopes to become a teacher.

Antoinette led the fourth termers by attaining an average of 94.4 per cent. She is also a member of Junior Arista and a third term student council representative. Antoinette hopes to attend either Brooklyn or Queens College and become an elementary school teacher.

The sixth termers were led by Pina Deninno, 6-1, who received an average of 96.6 per cent. Pina has an avid interest in languages and plans to attend Brooklyn College after graduation and eventually to become an (Continued on Page 3, Col. 3)

Pina, Antoinette and Josephine hold top honors for the sixth, fourth and second term, respectively.

Bushwick Hosts Guidance Sessions

By Robert Berger

During the summer from August 5 to August 30, a special program was instituted at Bushwick under the Manpower Development and Training Act.

Any pupil who had a question pertaining to his job plans or school program or who has an educational difficulty, was invited to call the school for an appointment with Mrs. LaGrasse or Dr. Finkelstein to discuss their problem.

The program was a big success—more than 80 boys and girls responded during the first week.

In commenting on the importance of this effort to keep students in school, Dr. Finkelstein quoted President Kennedy: "The greatest growth in labor demand today is for highly trained professional workers with sixteen or more years of education. The second fastest growing demand is for technical and semi-professional workers with one to three years of post-high school education."

Betty Crocker Scholarship Available For Senior Girls

The Betty Crocker Scholarship Examination for Young Homemakers will be given December 3. This is a scholarship for high school senior girls who plan to enter college.

The school winner will receive a certificate and pin at graduation. The student obtaining the highest score from each school competes for a \$1,500 state scholarship and a \$500 runner-up award. State winners are awarded an all expense paid trip to Washington, D.C., Williamsburg, Va., and New York City and a chance to win a \$5000 scholarship.

Although the test concerns home economics, the scholarship grants may be used in any field of endeavor or any college.

Any interested students can contact Miss Kraus, chairman of the Home Economics Department, official period and periods 7 and 8 by October 15. She will be holding coaching classes in the near future in preparation for the exam.

Bushwickites Adopt Poor Chinese Girl

By Marie Colicchio

Through the Foster Parent's Plan, the students of Bushwick have given a little Chinese girl a chance for a better life and future. Each student with his monthly contribution earns the title of foster parent.

Through our contributions, Mei Yuk will have a chance for a better life.

The little girl, Mei Yuk Chan, is seven years old. She comes from a very poor family who lives in a ten by six foot shack in the slums of Hong Kong. This dwelling is called home by Mei Yuk, her parents, and five brothers and sisters.

Mei Yuk's father works hard and long for a meager \$31.50 a week. This money is not enough to clothe, feed and educate the Chan family. With our help Mei Yuk will now get a chance to go to a decent school and be dressed properly. Her parents are very happy that their daughter will now receive help and grow up with the things they are unable to provide for her.

Through our help, which is approximately \$180 a year, separated into \$15 monthly allotments, Mei Yuk will be given clothing consisting of winter (Continued on Page 3, Col. 4)

Deninno Cops U.S.-Italian Award; Principal Offers Teaching Post

By Sarah Salvo

Pina Deninno, 7-1, brought great honors to Bushwick by winning a nation-wide Italian contest.

The exam which, resembles the Italian Regents, consisted of dictation, oral and reading comprehension, grammar and culture. The mark she attained in the exam was 96 per cent.

Last April, Pina was the winner of the state-wide Italian contest. She received a gold medal for her achievements at ceremonies held at Columbia University. Other students besides Pina represented Bushwick in the state-wide Italian contest. They too got recognition by receiving certificates.

By winning the state-wide Italian contest Pina became eligible to compete in the nation-wide Italian con-

test as New York's representative.

Pina also received a certificate and book from the Italian Teachers Association, a letter of commendation from the Superintendent of Schools and an offer from Dr. Forsheit to teach in Bushwick when she has finished college.

At Bushwick, one might say she is majoring in languages since she takes Spanish and Italian. After high school she plans to attend Brooklyn College. She hopes to continue to major in Spanish and Italian while in college in order to become an interpreter.

This test is sponsored by the Italian Teachers Association and is usually given in April of each year. Italian teachers for each class select candidates for the examination and are tested here at school.

Promising Year

Here we are again at the beginning of a new term. Behind us lies a lazy and care-free summer — farthest away were the thoughts of the coming fall term.

Here we are now, a month later, with a promising year ahead of us — both as a school body and as individual students.

Two significant happenings have already occurred that should encourage everyone to have a little more confidence in himself and his teachers.

Mr. Breslau, the school's only chemistry teacher, brought a great thrill to us all with the recent recognition he received for his outstanding contributions in chemistry. This recognition gives the entire faculty a higher goal to strive for and also makes the students proud to have a teacher of such high caliber.

The student body, too, should be equally proud of their accomplishment in the adoption of a poor Chinese girl, Mei Yek. This shows that our goals are truly in the right direction and, by this act of kindness, that we are inspired to continue in such paths.

With two such encouraging events to begin the term, how can the rest of the year be anything but successful?

News Splash!

At one time the loud and disjointed qualms of students busily trying to dress within seven minutes rang out from the dressing rooms of our gyms.

Now that the newest addition to our school, the ever-popular swimming pool, is opened to our students, the outbursts are even louder and more disjointed.

Yet we must be thankful for the few extra minutes allowed us for taking showers and changing from a sopping wet shapeless bathing suit to our classroom attire.

If suddenly, while walking through the corridors from class to class, we are confronted by stringy-haired girls, it is easy to detect what class they had the previous period. This is becoming very discouraging to our male students.

Bushwick Briefs

By Teresa Spano

Many of the students and teachers in Bushwick have had exciting and enjoyable summer vacations.

Miss Sorrentino for example, toured the Orient, visiting Japan, Taiwan, Hong Kong, Singapore, Thailand, and India. In Japan she visited the cities of Tokyo, Nikko, Osaka, Miyashito, Nagoya, Takamatsu, Hiroshima, and Kyoto. She ate Japanese food with chop sticks, slept in a Japanese house, and attended the Japanese Kabuki Theatre, where she was entertained by Geisha girls. She also visited Mikimoto Pearl Island and Mount Fuji.

In Taipei Taiwan Miss Sorrentino rode on a "pushcar railway" to visit an aborigine village.

In Bangkok, Thailand, she attended a Thai boxing match and the Thai classical theatre.

The high lights of India were the Taj Mahal, a speech by Premier Nehru in New Delhi, the burial rites at the Ganges River, the religious ceremonies in the temples, and an elephant ride.

Mrs. La Viola spent an eight-week vacation touring Europe. She visited London with its literary and historical landmarks; Paris with its brilliantly lighted streets; Toulon with the beautiful stretch of the Riviera, and all of Italy. Most of all she loved Rome with its centuries of civilization and religion; Florence with its fabulous art collections; and Venice with the gondolas gliding over the canals in such a romantic manner.

Karin Wachsmann, 7-7, accompanied her parents to Europe. They visited Czechoslovakia, Austria and Germany. In Germany they visited the German Alps, and went by cable car to the top of the "Zugspitze," the highest point in Germany. They saw the cities of Prague, Munich, Frankfurt, Aachen, Cologne, and Stuttgart. They went down the Rhine on an excursion boat and saw the castle of King Ludwig.

Mr. Gordon spent his summer in Puerto Rico. There he was employed as a marketing consultant. He feels Puerto Rico is truly a tourist attraction.

Frieda Weilacher, 7-3, also went to Europe. She went with her family by jet to visit her relatives. They stayed mostly in Munich but also visited Frankfurt. They were able to see England, Iceland, Greenland, and Canada during their trip.

Many vacationers found excitement and enjoyment traveling within the continent.

Mr. Steinberg drove to Stratford, Ontario, where he saw the Shakespeare Festival. He then went across Canada to New England and stayed at Provincetown on Cape Cod.

Also going north was Marian Traina, 5-3, and her family. They drove to Wisconsin to visit relatives. Marian enjoyed the beautiful parks, fresh air, and wide open spaces.

Marie Colicchio, 7-3, spent an exciting summer touring the United States.

Marie spent two weeks in California where she visited Disneyland, Marineland and Hollywood. On the way home Marie stopped at Las Vegas, Nevada, The Grand Canyon, Hoover Dam and Painted Desert. She also went through the Mojave Desert and the Rocky Mountains. From there she went on to visit Ontario, Canada and Niagara Falls. The trip covered approximately 8,000 miles.

Vicky Martinez, 7-1, went south this summer to Columbus, Georgia, to visit her parents. Vicky enjoyed the beautiful green scenery and the country life atmosphere. The appearance of brilliant colors in the sky, as the sun sets, impressed Vicky the most.

Robert Berger, 7-3, spent his summer visiting the colleges of his choice, Oswego State Teacher's College and Syracuse University, both up-state New York.

At Syracuse University he visited the Anthropology and Sociology Departments, which impressed him very much because of its fine collections and specimens. He visited the huge General Electric plant in the outskirts of Syracuse. On his way to Oswego he met a young novelist, who gave him an historical account of Syracuse.

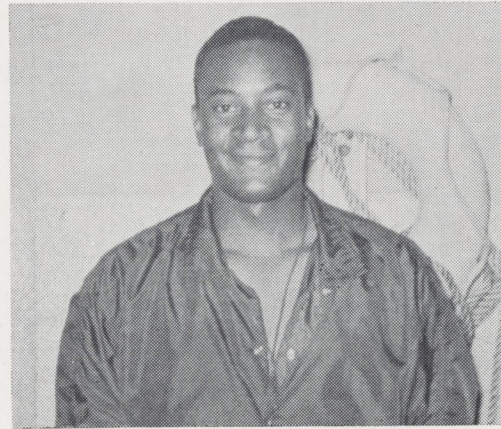

SPOT LIGHT

Mrs. Zemsky and Mr. Holder

By Daria Jakymchuk

Splash! Passing by the gym these days one is likely to hear the sounds of water being splashed about. Students are seen leaving the gym area with more "water on the brain" than usual. Girls are seen with their bouffant hair-dos being "slightly" water-logged. Boys find themselves rather wet behind the ears.

Actually, there is nothing fishy about the whole thing. This situation came about with the addition of a swimming pool to the school and two new faculty members to

Mrs. Zemsky and Mr. Holder, the swimming instructors, find the students very co-operative at the starting of the new course.

the Health Education Department. Mrs. Blanche Zemsky and Mr. Lionel Holder are the welcomed swimming instructors.

They take groups of approximately 25 students at a time from the regular gym classes, for three weeks at a time, to try to teach them as much as possible about swimming. The arrangement works so that the girls' and boys' swimming periods more or less alternate.

General Enthusiasm for Course

As the term began, both teachers and students dived into the course with a great amount of enthusiasm. The teachers claim that the students are very eager "to get into the swim." The students, in turn, would never dream of considering the course a dull, dry one. Everybody is overflowing with zeal.

Although the course is a new one, all objections were drowned out the first day. The problem of a student asking to be excused to get a drink of water, is not likely to come up too often.

Since swimming will be a graduation requirement sometime in the future, all those that refuse to get their feet in the water will be sunk.

Mrs. Zemsky comes to us from Bryant High School, where she was also a member of the Health Education Department. She finds from what she has seen of the student body, that it represents a mannerly, eager-to-learn, and co-operative group of pupils.

Mrs. Zemsky attended Hunter College. She has lived in New York City all her life. However, she does like to travel and spends most of her vacations just "getting away from it all" by staying in the country.

Devotes Much Time to Family

She comes from a very close-knit family. She spends a great deal of time with her three daughters, of whom she is very proud.

Since her eldest daughter is interested in modern dancing and art, Mrs. Zemsky frequently finds herself filling up her spare time by attending modern dance exhibits and visiting art galleries. She also enjoys the theater

very much and tries to see as many shows as possible.

While at home, Mrs. Zemsky likes to occupy herself with knitting, a pastime that she has enjoyed for many years.

Mr. Holder came to Bushwick after teaching gym in a junior high school in New York. He is pleased with his present job and finds the students just as helpful, polite, and willing as Mrs. Zemsky does.

Mr. Holder was born and raised in New York. He attended Seton Hall University in New Jersey and is now doing post-graduate work at C.C.N.Y.

Engages in Sports Activities

His particular interests lie in the field of sports. He enjoys them all—swimming, basketball, baseball—and is willing to participate in and learn others. He spends much of his free time in various sports activities.

Mr. Holder likes traveling, and although he hasn't done much yet, he plans to do so in the future.

When asked how he likes getting a new group of students every three weeks, Mr. Holder replies that he finds it very interesting. He enjoys working with smaller groups as in comparison with the entire class, because so much more can be accomplished with a small group.

When everything will be flowing along smoothly, Mr. Holder would like to start a swimming team. He hopes that we'll prove ourselves to be a real "school of fish."

As for now, "Swimming, anyone?"

Guidance Missile

By Eileen Ortiz

1964 graduating class seniors: have you started thinking of your plans for after graduation? College? Work? What?

If you are not day college bound, make arrangements to see your employment counsellor, Miss Tersillo in Room 228 any day, Monday-Thursday, between 8:15-3:30.

As new job seekers, you must make decisions which may affect your working career. For those seniors who are undecided about vocational choice, aptitude tests may be of help. Your vocational choice will be influenced by a number of factors—your aptitude, your abilities, interests, values, and others.

Another important notice to seniors, but this time to those who do plan to attend college, is that all college applications, private and municipal, must be in the mail before the Christmas recess. Municipal college applications are available in Room 228, while private school applications may be obtained only through direct request from the school you are interested in attending.

G.O. News

By Anthony Vita

The newly elected officers of the G.O., Robert Berger, Alexis Rivera and Mary Kopp, are busy organizing the Student Council for the coming year. Robert assures us that the Council will outdo itself in every venture it attempts.

The first task was the collection of G.O. dues. At the G.O. assembly, October 9, Miss Robinson, faculty adviser for the G.O., presented gold stars to the classes which had 100% G.O. by September 27.

The following classes received awards: 1-1, 1-2, 1-4, 3-0, 3-00, 3-3, 3-6, 3-10, 3-16, 3-21, 5-6, 5-12, 7-2, 7-3, 7-5, 7-6, 7-7, 7-8, and 7-9.

Those official classes which achieved 100% by today will receive a silver star.

By Priscilla Vazquez

Hello to all Bushwick veterans and a hearty welcome to all newcomers. This year there is a diversified program of extra-curricular activities. Listed below are some clubs with faculty advisers who you may contact if interested. More on these clubs in other issues of the BULLETIN.

Trinity Club

Mr. Kelley hopes to re-organize the Trinity Club this year for people who may or may not be Protestants. In the past the Trinity Club has discussed passages from the Bible. They have attempted to increase the understanding of all religions and various members have given speeches to other club members. Mr. Kelley has much of this in mind for the coming term. Anyone interested should contact him by putting a letter in his mailbox.

Future Teachers' Club

Miss Haron who is the faculty adviser for both Junior and Senior Arista and also the Cheerleaders, has announced that she is currently organizing a Future Teachers' Club. The main purpose of this club is to show how anyone who wishes to teach may prepare for that career. Pupils who are interested in this profession or who are now in the process of deciding upon a career may find this to be very profitable. Miss Haron may be found in Room 228 during periods 7 and 8.

Radio Club

Mr. Schiffman, chairman of the Science Department, has announced that he would like to re-organize the Radio Club. He points out, however, that the clubs reorganization depends upon whether the radio transmitter can be repaired. Any student interested in joining the club should see Mr. Schiffman in the Science Office, Room 529. He is particularly interested in finding students who are familiar with Morse Code but all interested students are encouraged to join.

Girls' Bowling Team

Wednesday, October 2, the Girls' Bowling Team began another season when they met at the Parthenon Lanes at Myrtle and Wyckoff Avenues. They will be meeting there at 2:30 every Wednesday afternoon. This year Mr. Golden, the adviser, has stated there will be seven trophies awarded to the girls with the seven highest scores at the end of the year. Girls may sign up as a team of five or be placed on a team of five by contacting Mrs. Golden.

Atlas Club

The purpose of the Atlas Club is to aid in the conduct in the building, the control of traffic, and the maintaining of security. The group, under Mr. Faber, plans to add various social activities to their program this year.

Standards for membership set by the boys are in behavior, scholarship and participation. Any boy who wishes to apply may see Mr. Faber in the Dean of Boys' Office periods 1, 2, 7, and 8.

By Patricia Sciacca
New Adviser

The Arista members would like to welcome Miss Haron as our new adviser. We know that she will benefit both herself and the members of our organization. Miss Haron will retain her former position as adviser for the Junior Arista.

Academic

Miss Haron is in the process of screening possible candidates from among the members of Senior Arista for a new television program entitled "Academic." Fifteen students will be needed to participate in this new educational experience.

PSAT

The members of Junior and Senior Arista are preparing to take the Preliminary Scholastic Aptitude Test, October 19. The PSAT is used by scholarship sponsors in the consideration of applicants for awards.

Anything For Dear Ole Bushwick

By Gerri Capodici

Looking back over the past year one encounters many incidents, some amusing, some trying and some a combination of both, however all memorable. Now that the soccer season is once again upon us, my thoughts go back to that autumn day of last year when we were vying for the city championship. Yes, I remember it well—what preparation!—what anticipation!—what anxiety! Not only did the team have to face a formidable foe but we cheerleaders had to spur them on to victory.

And—the game was to be televised!

On the eve of the game what energy was expended on checking and rechecking uniforms, fuming over straggly hair and chipped nails—for we were to be seen—our debut!

The day of the game finally came and we did all we could to keep our minds on the game and away from our camera jitters.

We ran onto the field and got into formation with many an eager eye searching for the prying lens. Suddenly we were on camera—and just as suddenly we were off! Yes, all of this for one fleeting moment in the limelight.

The hours of practice we put into perfecting our cheers resulted in stiff bones and sore muscles, but what matter these; it was do or die for Bushwick High!

14 Added To Faculty

(Continued from Page 1, Col. 2)

The Science Department has three additions: Miss Marsha Gross, who has replaced Mr. Jerrold Gross in biology; Mrs. Ruth Stein, who replaced Mr. Vito Grieco as our laboratory assistant; and Mr. Stephen Krane, who has returned from a leave of absence.

Messrs. Heilbraun and Symons have returned to the Social Studies Department from leaves of absence, and Mr. Seligman, former dean-of-boys and teacher of economics, has been replaced by Mr. Leonard Mednick. Mr. Mednick says of the student body: "They are a fine, gregarious group, diverse enough to challenge the most ambitious teacher." He lives in Sheepshead Boy and enjoys sports and good folk music.

Other additions to Bushwick this term are Miss Lorna Selkove in the Mathematics Department and Mrs. Perluck in the Home Economics Department.

74 Pupils on Honor Roll

(Continued from Page 1, Col. 5)

interpreter. This past year she won a first place award in a national Italian contest; she is a member of Senior Arista and the second page editor of the BULLETIN.

Runners-up for the highest averages were Claudia Uhl, 6-7, who earned an average of 94.8, Kathleen Ingarra, 4-1, with an average of 93.8 and Onorata Belich, 2-1, with an average of 93.8.

RKO FIRST-RUN THEATRES

Reporters Interview Chamberlain During His Trip To New York

By Elaine Sincavage and Olga Tretiak

Actor-singer Richard Chamberlain, star of television's "Dr. Kildare," held an interview with the BULLETIN, September 18.

Promoting his new motion picture, "Twilight of Honor," Dick made one of his rare appearances in New York.

Born George Richard Chamberlain twenty-eight years ago, he has rapidly risen up the ladder of success in becoming TV's brightest young star.

A native of Los Angeles, Dick attended Pomona College enrolled as an art major, hoping to one day become a professional artist. A two-year army hitch in Korea followed, an experience Dick says he'd like to forget. Returning to the States, Dick decided that art did not satisfy him. While still in college, he had discovered a new world, the world of acting. He was now determined to one day be recognized as an actor. To prepare himself for his career Dick took both acting and vocal lessons in order to improve himself.

After many "bit" parts, including two unsuccessful movies, Dick was tested for a proposed television series, "The Paradise Kid." Unfortunately this series never sold. Then his big break occurred; M-G-M was testing for the lead part in "Dr. Kildare," and out of hundreds who participated, Richard Chamberlain got the part. The rest is history.

As America's favorite doctor, Dick is also gaining a name for himself

Olga Tretiak, one of the two Bulletin reporters, interviews Richard Chamberlain.

in the recording field, having already waxed a best-selling album entitled *Richard Chamberlain Sings*. His latest release is *Blue Guitar*.

Dick's boyish charm has sent girls' hearts a-flutter, from coast to coast, and captured the admiration of many a male. His captivating charm and strikingly good looks have destined him for success.

Good Luck, Dr. Kildare!!!

Chinese Girl Adopted

(Continued from Page 1, Col. 5)

coats and rainwear, school supplies, food, medicine, toiletries, blankets, and tuition for a year of school.

Mei Yuk expresses her gratitude in her letters. She is unable to write yet but her brother writes her thoughts for her. Mei Yuk expresses thanks in these words, "May God bless your health, your families, and everything. I will study hard to make you feel happy."

Bushwick High can be proud of itself for helping a needy and appreciative little Chinese girl.

Mr. Breslau Wins Award

(Continued from Page 1, Col. 2)

University and Liaison Officer for the National Science Foundation Institute at the University of Rochester. In private industry Mr. Breslau was co-author of a game named "The Elements."

At Bushwick he has held many positions, including that of being G.O. Adviser for eight straight years. Teachers and students of Bushwick are indeed proud to have such a prominent teacher among their faculty.

Creative Corner

Creative Souls: As often as possible we intend to reserve a corner of the Bulletin for the creative writing abilities of Bushwick student. You are invited to submit your original work to the Publication Office, Room 403. Poetry, brief essays and short stories will be gladly accepted for our perusal.

The Bird in the Sky

I am the bird in the sky
Why am I there? I know why
But I was not always there
Sitting without a care

I came from a cage
In a terrible rage
And flew away
On a beautiful day

Why flew I away
On this beautiful day
I wanted to be free
And go where I want to be

Why flew I
Up so high
I wanted to resign
From a terrible time

I wanted to see how happy I could be
To watch people go by
While I watch on high

So now sit I
Way up high
Never moving—why
That was the day I died

Vita Barbera, 6-6

Night

The unctuous fingers of night are tickling my spine
And the warm folds of air rob me of dolorous thoughts.
The thrills of a harpsicord can be heard ebbing away—
Touch the earth now. All that can be felt are in the rhythm of tiny pulses; sunflower seeds breaking ground or just hatched ants smelling the deep blackness of their earth.

Ronald Corrado, 7-1

Existence

To exist from day to day in accord with others
We must, each of us, die a little.
For what is life, but a slow painful death,
Prolonged by nature's obstacles?
And what is death,
But a continuation of that life we knew?

There can be no end to our existence,
Since Life and Death, like an endless cycle,
Revolve into an eternity, where time goes on,
Unmark'd by events of significance.

Beverly Campbell, 7-1

TIGER ALLEY

Basketball by Raoul DiBlasi

The '63-'64 basketball season will get underway Friday, November 15, when the Bushwick Tigers meet Grover Cleveland away from home in an exhibition game.

The new team is built around last year's junior varsity which managed to maintain a 13-1 record. Only three seniors will go out for the team this year, these being Locurto, Reiger, and Dudley. According to Coach Diamond, Jackson is this year's most promising sophomore.

Although lacking somewhat in height the new team is by no means lacking in attitude and school spirit. All players are in good physical condition and should succeed in securing a good number of victories for Bushwick. After careful consideration Coach Diamond stated that he is cautiously optimistic about the coming season.

This year Bushwick has joined a different basketball league than the one it has belonged to in the past. The new team will be competing against some of the finest high school basketball teams in the city. Other high schools in this league include East New York, Edison, Queens Vocational, Woodrow Wilson, and Aviation.

Before the opening game of the season November 15, Bushwick will be scrimmaging against the other teams in the league. This will give the team a chance to practice against some rough competition.

This season's basketball varsity will be built around last year's outstanding junior varsity which had a 13-1 record.

The following is the season's new official basketball schedule for the first two months of the season.

Fri., Nov. 15 Bushwick vs. Grover Cleveland (away)

Tues., Nov. 19 Bushwick vs. Whitney (away)

Mon., Nov. 25 Bushwick vs. Hamilton (home)

Thurs., Nov. 28 Open

Wed., Dec. 4 Bushwick vs. East New York (exhibition-away)

Mon., Dec. 9 Bushwick vs. Westinghouse (home)

Thurs., Dec. 12 Bushwick vs. Queens Vocational (home)

Wed., Dec. 18 Bushwick vs. Wilson (away)

Soccer by Sal Alger

The soccer team, which is the New York Champions of last year, began their new season October 3, against Erasmus High School. The opening game was won by Bushwick by a score of 3-1.

In preparation for the official season Bushwick played several exhibition games. September 24, Bushwick played Aviation High School to a 1-1 tie at our home field. These games enabled Mr. Cohen, the coach, to organize the team and to practice new plays. It also gave the coach an idea of the strength and depth of the team as a whole.

Coach Cohen is looking forward to another fruitful season. At present there are thirty players on the roster who represent seventeen countries. The countries represented are: U.S.A., Italy, Germany, Poland, Jamaica, Israel, Brazil, Argentina, Austria, Panama, Trinidad, Honduras, Ecuador, Aruba, Tunisia, Surinam and Curacao.

The players and the positions are as follows: Goaltenders—Anthony Anello, and John Fuch; Forwards—Anthony Chiello, Armando DeFreitas, Kenneth Dest, Allen Heron, Frank Heron, Rogelio King, Gerd Rudolph Legler, Frank Piccione, Victor Reid, Emanuele Tavormina and Estuardo Villao; Halfbacks—Robert Berger, Rupert Brown, Anthony Fontana, William Gabburt, Mordeckai Platkewicz, Winston Quidon, John Riedmueller, Walter Schiele, and Paul Vaiana; Fullbacks—Rainnon Grumbs, Ronald Klosis, Carlos Lauro, Keith Reid, Robert Sbaschnig, Walter Schoellnast and Irwin Sternberg; and Manager—Phillip Galfano.

Soccer Schedule

Thursday	October 3	Erasmus	Home
Tuesday	October 8	Midwood	Away
Wednesday	October 16	Boys	Home
Friday	October 18	Automotive	Home
Monday	October 21	Wingate	Home
Thursday	October 24	E.N.Y.	Away
Wednesday	October 30	Hamilton	Away

Bowling

By Gustavo Grande

The bowling team, under the guidance of Mr. Goldman, is getting ready to start its second season.

Last year, the team didn't do badly and great things are expected this term. However, the team lacks a little depth and new members are needed.

Mr. Goldman has made known that in early October tryouts for the team were made. Every boy in Bushwick was eligible to join and a good number turned out for the team. The bowling tournament should provide for two and a half months of fun and exercise.

A boys Bowling Club will also be organized under the direction of Mr. Goldman. The girls' Bowling Club is headed by Mrs. Golden. For all you bowling enthusiasts: now's the time to join.

Swimming

By Gustavo Grande

For the first time in Bushwick's history, students will have swimming classes. We are very proud and lucky to have two fine teachers in charge of swimming. They are Mr. Holder and Mrs. Zenmsky. Both look to future plans concerning the pool with eagerness and hope.

Mr. Holder is certain that by the end of next term every student in Bushwick will have had swimming. Swimming. Students who have swimming will receive either a beginner's or a swimmer's certificate at the end of the term. Mr. Holder hopes that soon he will be able to give Bushwick's juniors and seniors "Life Saver" certificates.

Mr. Holder stated that by next term he expects to have the beginners and advanced swimmers in separate classes. This is to enable the teacher to present more individual and accelerated instruction. Certainly by the spring semester of 1964, the instructors feel that Bushwick can expect the start of a swimming team. Beware Brooklyn Tech, Bushwick is getting ready!

Track Team Begins Cross Country Season

With the coming of cross country, Bushwick's track team looks forward to its most promising season. The Tigers' hope lies in the distance men of last year. They are: Gordon Rogan, Roman Lomnyskyj, Marc Robinson, Anthony Pellicain, Tom Smith, Rachford Potter, and Teddy D'Amico.

In last year's competition Bushwick finished in the lower fifty per cent, but this year it is conceivable that Bushwick can cop the title of Brooklyn Champs. This great turn about could be attributed to the vast improvement of Rogan, a sophomore with good speed, Lomnyskyj, a junior with great determination and D'Amico, a senior who practiced the entire summer. The improvement of these individual members and the team as a whole, coupled with the addition of Nick Borracco, a promising sophomore from Loughlin, should really add to the team's strength and depth.

In addition to Borracco, Bushwick has also been strengthened by the addition of Chippy Pazienzo and Russel Glover, both of whom have shown exceptional speed during the practice sessions. These boys along with Robinson and Gene Durett should, in all probability, break their novice standing in the 880 yard relay in the first meet of the indoor season.

The track team, with a good number of returning harriers, looks forward to its most promising season.

In preparation for the five major cross country meets and the indoor season, Coach Delfyett has intensified the training with emphasis on strength and endurance. A typical work out may include running as much as seven miles or running four to seven quarter miles at full speed.

Developmental Meet

In Bushwick's first meet which was held at Van Courtlandt Park, September 26, the team did show noticeable improvement but was far from the expectations of the team and Mr. Delfyett. In the meet Bushwick finished 8 out of 21 schools.

Bushwick's best performance was turned in by D'Amico who finished 7 out of 210 but the time was a disappointing 14 minutes, 41 seconds. The Tigers did have some hard luck when Lomnyskyj caught a cramp midway through the race which cost him 20 to 30 second and Bushwick an 8th place finish.

Noteworthy and suprising performances were turned in by Virgil Green and Borracco who for the both of them it was their first attempt in running the 2½ mile cross country course.

Ye Olde Sports Quizze

- Who holds the record for the most strikeouts in a single season?
a. Walter Johnson
b. Sand Koufax
c. Bob Feller
d. Lefty Grove
- Who holds the world 2 mile track record?
a. Peter Snell
b. Jim Beatty
c. Roger Bannister
d. Gordon Rogan
- Which pitcher holds the record for most wins in a season?
a. Lefty Gomez
b. Dizzy Dean
c. Cy Young
d. Jack Chesbro
- Who holds the record for most points scored in basketball in a single game?
a. Bob Cousy
b. Bob Pettit
c. Wilt Chamberlan
d. Elgin Baylor
- How long does it take for Bob Hayes to run a 100 yards?
a. 9 minutes
b. 9.5 seconds
c. 9.1 seconds
d. 10 seconds
- Who has the highest lifetime batting average in the National League?
a. Roger Hornsby
b. Ty Cobb
c. Willie Mays
d. Babe Ruth
